An Ancient and Carious Coin. A very old and curious gold coin was rebankers and others versed in numismatics at Pittsburg, but none of them have been able to give any definite init may be centuries-lefore that date. It is of antique workmanship, and bas ISP, as a portion of the legend, and with other indications lead to the belief that the coin is of Spanish make.

The reverse of the coin is very curious, and contains a great many devices or emblems. The principal figure is composed of two pillars, with two horizontal bars running across, in the interstices of which are letters and devices, the principal of which are between the pillars and are very plain is a P. and on the right side an A., both very distinct. There are also Roman numerals, which, as far as they can
